

Sunfix SPD is suitable for 60°C exhaustion dyeing but it is specially modified to have similar dyeing curves among its trichromie. It is highly recommended for dyeing of brown, khaki, or olive which requires relatively high reproducibility in medium shades.

Product Name	Features
 <i>Yellow SPD conc.</i>	<i>A golden yellow dye.                      Basic red dye of Sunfix SPD series                      Good compatibility with Sunfix SPD dyes                      High purified dye. Very suitable for repeated washing with modern detergent</i>
